Principles and concepts of occlusion in restorative dentistry

Published On: April 04, 2023 | Pages: 001 - 007

Author(s): Nafeesa Qureshi* and Zahid Imran

The importance of occlusion to practicing dentists is immense as it plays a key role in the success or failure of restorative procedures. This article attempts to demystify and present an overview of the complex topic of occlusion and its principles which are important for the success of restorative procedures. The article discusses the principles of occlusion as thes ...
